About *AdaptAbilities*

A Dual-Purpose Organization Providing Longterm Stability and Support to Children, Youth, and Adults with Disabilities - and their Families

AdaptAbilities provides unique, high-quality respite care for parents and guardians, giving them the opportunity to attend appointments, work, run errands, see friends and family, and practice self-care, all while knowing their loved ones are safe and well-cared for. This essential service helps prevent caregiver burnout, allowing families to thrive.

We also offer purposeful programming for children, youth, and young adults with diverse abilities. Our programs focus on relationship building, skill development, self-advocacy, community connections, and achieving personal goals like employment or volunteering. AdaptAbilities empowers individuals to grow, succeed, and belong, creating new possibilities every day.
